

Job Posting – Senior Quality Technician

Staub Precision Machine, a leading manufacturer in Hamburg, is looking to hire a **Senior Quality Technician** to support our growing business. The ideal candidate will have experience in a manufacturing setting working in an established quality department.

Essential Duties and Responsibilities

- Develop procedures and processes to ensure compliance to customer and regulatory specifications.
- Facilitate implementation of new or revised procedures and processes.
- Ensure that manufacturing processes and product meets internal and external quality requirements.
- Identify quality requirements and communicate them to manufacturing staff.
- Perform in- process, first article and final inspections.
- Generate inspection processes and paperwork to support production's effort to demonstrate conformance.
- Communicate with the production team to address any quality issues that occur during the manufacturing process.
- Assess data to track process performance and identify areas of risk.
- Document non-conformance and assist in root cause analysis.
- Completion of all paperwork, records and certifications.

Candidates should demonstrate the following skills and experience:

- Strong attention to detail.
- Ability to work in a team environment, with strong communication skills.
- Able to read blue prints.
- Advanced understanding of Geometric Dimensioning and Tolerancing (GD&T).
- Bachelor's degree or 5 years of relevant work experience.
- Proficient in Microsoft Word and Excel.
- Experience using manual inspection equipment (gauges, calipers, micrometers).
- Experience with programmable inspection equipment (CMM, vision system, optical comparator) preferred.
- Understanding of ISO 9001 or AS 9100 preferred.

Staub Machine has competitive wages and benefits package.

Shift is Monday – Friday, 7-3:30.

Job Type: Full-time

Please no phone calls or drop offs.

Staub is an equal opportunity employer.
