

## **Job Posting – Deburr Technician**

Staub Precision Machine, a leading manufacturer in Hamburg, is looking to hire a **Deburr Technician** to support our growing business. The ideal candidate will have experience in a manufacturing setting with experience in deburring or finishing of metal parts. This position is located in the Hamburg, NY area.

### **Responsibilities Include:**

- Perform manual deburring operations on machined metal parts
- Use pneumatic deburring tools to break edges, blend defects, etc.
- Learn and develop processes and techniques for deburring parts
- Inspect parts under magnification
- Verify part conformance and identify defects
- Operate automated deburring equipment
- Report production output, document work as required

### **Candidates should demonstrate the following skills & experience:**

- Keen attention to detail
- Strong work ethic, driven to succeed
- Good hand eye coordination
- Excellent fine motor skills
- Ability to work under a microscope for long periods of time
- Experience in a machine shop or manufacturing environment
- Experience working in a deburring role is a plus but not required

Staub Machine has competitive wages and benefits package.

**Shift:** Monday – Friday, 7-3:30.

**Job Type:** Full-time

If you possess the necessary skills and would like to join a growing, dynamic organization, please apply online with us.
